Sneha Singh

✉ snehasingh05749@gmail.com ☎ 7304624203 📍 Asalpha, Ghatkopar, Mumbai ⌥ Portfolio

👤 Professional Summary

- 4 years hands-on experience in enterprise banking applications.
- Expertise in Java 8, Spring Boot, Hibernate, Spring MVC, Security, REST APIs, MySQL.
- Full-stack: Backend services and responsive front-end (HTML, CSS).
- Proficient in Exception Handling, Collections, Database optimization.
- Skilled in debugging, performance tuning, secure authentication mechanisms.
- Committed to continuous learning and industry best practices.

💼 Professional Experience

EbixCash — Java Developer, Dec 2024 – Present
- Developed secure financial applications, collaborated for scalable, high-availability solutions.

Kotak Mahindra Bank — Java Developer, Oct 2022 – Dec 2024
- Built secure, scalable mission-critical banking applications, RESTful services.
- Enhanced user interfaces with HTML, CSS for responsive front-end design.

Sun Chem India — Java Developer Intern, Aug 2021 – Oct 2022
- Assisted in Java application development, debugging, testing, optimization.

🖧 Key Projects

- **Payment Processing System** (May–Aug 2025): Enabled secure, real-time transaction processing for banking clients.
- **Financial Dashboard** (Dec 2024–Apr 2025): Provided data visualization for financial metrics and user management.
- **NEFT System** (May–Oct 2024): Facilitated secure electronic fund transfers with encrypted communication.
- **Alert Monitoring** (Nov 2023–Apr 2024): Delivered real-time event detection and notification for banking operations.
- **CIBIL SIRS** (May–Oct 2023): Supported credit score reporting with optimized data retrieval.
- **NPA System** (Nov 2022–Apr 2023): Managed non-performing assets with secure data processing.

Roles and Responsibilities:

- Designed and developed secure backend services using Java 8, Spring Boot, and Hibernate with JWT authentication.
- Built responsive front-end interfaces using HTML and CSS for user-friendly applications.
- Optimized MySQL database queries for high-performance data processing and scalability.
- Implemented microservices architecture to enhance system modularity and maintainability.
- Configured real-time monitoring and notification systems for efficient event handling.
- Collaborated with teams to ensure secure, scalable, and high-availability solutions.
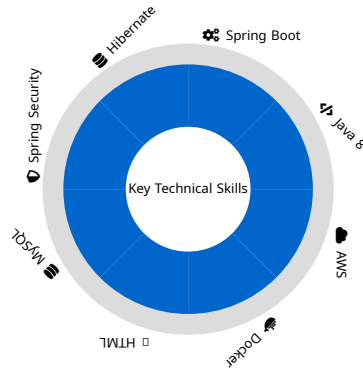

🎓 Education

M.Sc IT – S.P.D.T College 82%	2021–2023
B.Sc IT – S.P.D.T College 84%	2017–2020
HSC – Terna Eng College 57%	2015–2017
SSC – H.B.V.M School 65%	2014–2015

🚩 Career Objective

Passionate Java Developer with 4 years of experience in the banking and financial domain, specializing in secure, scalable, high-performance technology solutions.

⚙ Technical Skills

- **Languages**:
  - Java 8
  - Core Java
  - Java Errors
  - Data Structures
  - Collections
  - REST API
  - HTML
  - CSS
- **Frameworks**:
  - Spring Boot
  - Spring MVC
  - Spring Data JPA
  - Hibernate
  - Spring Security (JWT)
- **Databases**:
  - MySQL
- **Tools**:
  - Eclipse
  - IntelliJ
  - STS
  - VS Code
  - Git Bash
  - Git
  - Maven
  - Jira
  - Postman
- **Platforms**:
  - Apache Tomcat
  - AWS
  - GitHub
  - Docker
  - Kubernetes

✸ Certifications

- Java Full Stack Developer Course – IBM
- AI Tools – ChatGPT
- MSCIT – Government Certified
- Member – Drishya Talent Assemble
